## VACUUM MEMBRANE PRESS

The VPR is a cold membrane vacuum press is designed for woodworking and furniture production. Membrane press is equipped with rotary work-table, which saves production space and allow use it in small workshops.

### Area of application

**Veneering:** Using in furniture production, in construction of interior and exterior.

**2D Coating:** Coating of simple profiles for furniture and interior.

**2D bend-glued parts:** Manufacturing of curved parts.

### 3D shaping :

Shaping of thermoplastic materials and solid surfaces

Perhaps complete with a silicone membrane.

### In standard

Work table from 12mm HPL board.

Natural rubber membrane.

Oil free vacuum pump with capacity 25m<sup>3</sup>/h.

System of vacuum control and automatic pump stop.

Pressure tank 15l.

On request press will be equipped with wheels to moving.

Silicone membrane on request.
